## What about prescriptions?

Our doctors will write the prescriptions that you need, which can be used at any UK pharmacy. Unlike other providers we can prescribe for all conditions because we can ensure suitable examination. There is no additional charge for prescriptions on top of your membership.

Yes our concierge team and doctors can organise almost anything from a simple blood test to a whole body MRI. For a full list of other services see our website for prices and availability.

## Can you refer me to my private health insurance?

Yes we can refer you if appropriate to a specialist for consultations, treatments and diagnostics. Our health concierge team will ensure you are made aware of the best options available for what you need. We can provide some tests ourselves, for others we have a network of partners and relationships with the best providers in healthcare.

## Do you offer sick notes?

Yes absolutely - this is all covered in your membership. For business owners who want AKEA for business we also offer a range of health assessments and occupational health services for employees.
